**Project Description:** In this section, provide a clear, detailed description of your project. Paint the picture so that a reader who is totally unfamiliar with your project can envision it in detail as if they've never heard of it before. Although it is helpful to tell about relevant past efforts, you must provide specific evidence of planning for your coming activities. Use the outline below as a guide in forming your response.

### 1. Summary Paragraph

Summarize your request in a few sentences. Begin your narrative with a single sentence description of how much money you are requesting and what it will be used for: [i.e. The (name of organization) requests (\$X) to (support/ expand/etc.) the (name of

project/series/event, etc)]. This first sentence will be used in all printed project summaries.

2. Who, What, When, Where, How? Your project description should answer the following questions thoroughly.

- Who are the key project personnel? Include artistic personnel (artists, artistic director, etc.) and key administrative personnel (the project manager/coordinator). Describe their roles in the project's implementation and provide a brief overview of their qualifications. These can be more thoroughly fleshed out in the support materials that you attach to the application. Be specific, list names and their role in the project.
- What will happen? Describe the project activities in detail.
- When will the project take place?
- Where will the project take place?

### 3. Project Goals

State the goals of your project and the reasoning behind them. What will your project accomplish? Does it address a specific community need/interest? What are the measurable outcomes?

### 4. Community Involvement

Who does the project serve? How have your past activities been supported by your community (e.g. through attendance, financial support, and in-kind donations)?

### 5. Educational Activities (as applicable)

Describe your educational activities and materials connected to the proposed project. State how and why they were developed. How will the educational activities enrich the experience for your constituency and enhance the project?

Using the outline above, provide a clear, detailed description of your project (2500 words max):

### **Project Implementation:**

Both quantitative (number of people attending) and qualitative (audience surveys, committee evaluations, etc.) evaluation techniques can and should be used to fully assess the strengths and weaknesses of your project. (1250 words max):

**Upload a sample evaluation tool**--such as an audience survey--your organization has used for previous evaluations.

**Accessibility:**

How will your organization strive to make the project accessible to diverse audiences? Examples could include creating sensory-friendly experiences, multilingual performances/exhibitions with translation, American Sign Language (ASL) interpreted performances, pay-what-you-can nights, etc.
